

Collaboration “Pie”

Use your “Collaboration Pie” to record the names of five people you will work with today in class. Write a name in each of the pieces of the pie. Be sure that you and your partner have the same number available. Then, starting with number 1, and ending with number 5, you will move around the room and meet with those students whose names make up your “collaboration Pie.” Your teacher will provide your discussion topics and collaborative work. Write your discussion topics at the top of each square.
